

## Himalayan Sandstone

Himalayan sandstone is a popular stone suitable for all type of exterior projects. This Himalayan sandstone stands apart from most Himalayan stone available as it is calibrated providing consistent thickness and limited colour variation, which perfectly suits the current trend in Australian landscape design.

NEW Himalayan Sandstone Anti-Slip finish is manufactured using a NEW unique 2-part process. This finish is perfect for outdoor areas including swimming pool surrounds, as it provides anti-slip properties required, whilst being gentle under-foot.

Use	Applications	Finishes
- external	- floors - wall cladding - pool coping - step treads	- anti-slip(AS) - natural(N) - honed(H) - sandblasted(S)
