

Serpanjani Stone

Serpanjani is a dense stone with a unique blend of both sandstone and limestone qualities. It also contains natural ancient fossil segments, making this stone completely unique to your project. The natural sandy tones are perfect for interior applications and will complement both traditional features and chic contemporary finishes. Serpanjani stone works wonderfully in hallways, entry foyers or open plan living spaces.

Use	Applications	Finishes
- interior	- floors	- polished(P)
- exterior	- walls	- honed(H)
	- counter tops	- brushed(B)
