

White Palimo

White Palimo is a hard-wearing 'salt safe' volcanic stone which makes it perfect for external applications. The neutral ivory grey tones give a similar look to than a pale sandstone tile, however the density of this stone makes it far less susceptible to salt erosion than sandstone. White Palimo is so durable it is great for commercial projects with heavy traffic requirements.

Use	Applications	Finishes
- external	- floors - walls	- honed(H)

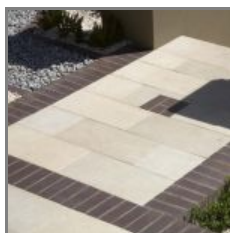

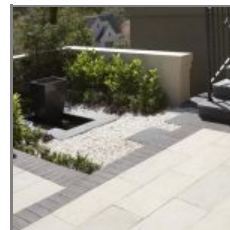

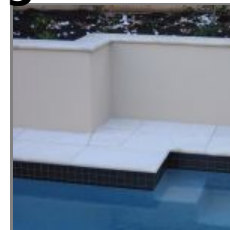

Available Sizes

- 450 x 450 x 15mm (H)
- 600 x 300 x 15mm (H)
- 600 x 600 x 20mm (H)
- 800 x 400 x 20mm (H)
- 450 x 450 x 30mm (H)
- 600 x 300 x 30mm (H)
- Pool Coping Type A (H)
- Pool Coping Type B (H)
- Pool Coping Type C (H)
- Pool Coping Type D (H)
- Pool Coping Type E (H)
- Pool Coping Type G (H)
- Pool Coping Type K (H)

Specifications

- Water Absorption: 2.8%
- Abrasion Resistance: 21.2
- Suitable for Heavy Duty Foot Traffic
- Specific Gravity: 2.53
- Slip Resistance(H)67=V-Very Low
